

DELIVERABLE N°3

"Mapping of Competencies"

RESTRICTED

Contract no: HPSE-CT-2002-00138

Title: The Provision of Basic Services in Liberalised Markets (BASIC)

**Project coordinator: The Interdisciplinary Centre for Comparative Research
in the Social Sciences, Vienna, Austria**

**Reference period (see technical annex): Work package 1 from month 1
to month 8 of the project**

Date of issue of this report: 21st April 2005

TABLE OF CONTENTS

Introduction	3
1. United Kingdom	4
2. France	13
3. Germany	20
4. Italy	22
5. Netherlands	29
6. Switzerland	32
7. Poland	36
8. Austria	41

Introduction

This document contains a mapping of competencies in Europe related to research on so-called "basic services" or "services of general interest". The purpose of this document is to identify and list the main sources of competence / expertise in the relevant disciplines and multidisciplinary work. This includes the most relevant institutions and individuals in the eight countries studied in the BASIC project¹.

The mapping of competencies is based on the study of academic literature carried out for the Deliverable D1 of the BASIC project.

¹ The eight BASIC countries are: Austria, France, Germany, Italy, the Netherlands, Poland, Switzerland and the UK.

1. United Kingdom

Researchers

No	Name of researcher	Name of institution	Area of expertise (Academic discipline)	Publications
1	John Kay		Relationships between economics and business, Regulation (Economics)	Kay, J. (1996), <i>The Future of UK Utility Regulation, Regulating Utilities: A Time for Change?</i> , IEA in associated with the London Business School, Readings 44, London: IEA, 145-171

1		Confservizi	the association of local public services providers (about 1,500, including enterprises, associations, consortia, etc). It provides studies, analysis, consultancy, legal assistance and legislative support to the associates. It publishes periodical reports about the main economic statistics of local public services providers (operating costs, tariffs, investment, occupational level, etc).	www.confservizi.net
2		Hermes Ricerche	Higher Education and Research on Mobility Regulation and the Economics of Local Services, is a research centre for economics of public utilities (local public transport and other regulated services) backed by The University of Turin and ASSTRA (the association of Italian Public Transport Operators). The activities of HERMES concern the study of legal and economic problems connected with the Local Public Transport (LPT) reform and other regulated sectors: energy (gas and electricity), water services and environmental services (waste collection and treatment).	www.hermesricerche.it
3		<i>Nomisma</i>	public stock corporation active in several projects on commissions. Its Operational Unit on Local Public Services has organised conferences and seminars and issued a series of working papers regarding the Associate Programme of the Local Public Services Unit; articles in the newspaper Il Sole24Ore.	www.nomisma.it
4		Proaqua	Centro Ricerche sui Servizi Pubblici. The research centre publishes studies and analysis about the provision, the organisational transformation and the regulatory activities of local public services. Particular focus is devoted to water provision, local public transport and waste disposal.	www.proaqua.it
5		Fondazione Rosselli	It has as main target research the activities applied to	www.fondazionerosselli.it

			the economic, social and political fields with special attention to public policies on both a national and a European level. The Public Service area of the institute publishes a periodical report (years 1993, 1995 and 1999) about the service of public utility in Italy.	
6		Italian Corte dei Conti	It is an institution of Constitutional relevance, with the role of safeguarding public finance and guaranteeing the respect of jurisdictional order. The Corte pursues these two aims through two functions: the audit function and the jurisdictional function. Concerning the public local services, a permanent observatory auditing the Local government Budget's management has been established, with particular reference to the financing of local service provision	www.corteconti.it
