General Availability:

Reporting unit: Individual

Reporting level: country

Reporting period: annually

Data available from 1980 to 2000

Availability by country:

1980 - 2000: EU-15+AC

The indicator:

Annual population increase by country per 1,000 people.

Description

This relates to the critical factors on migration trends and fertility trends

How is it measured?

Information is taken from national statistical offices using census data. Usually the numbers are estimates based on census round of 1990/91 and the applying of the component method.

What are the advantages of the indicator?

Population growth by country is the standard background demographic indicator used in socio-economic analyses. In time series and comparative perspective it provides important information on the dynamics of demographic change.

What are the disadvantages of the Indicator?

There are gaps in the data for accession countries.

What is the policy relevance of the indicator?

Population growth is a key demographic characteristic of relevance for social, health, pension and other policies.

The Indicator is relevant for the following pathways of the FORESIGHT FOR TRANSPORT exercise:

	Transport Impact	External Determining Variable	Intermediate Variable	Contextual Information
Ageing and the labour market	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Ageing and leisure patterns	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Migration and seasonal mobility	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Changing household structures	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Flexibilisation of the labour market	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Flexibility in working hours	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
